Lt,

I'll reach out to him this afternoon. To my knowledge, all SMPD Blue Light Cameras have been retired, with the exception of those managed by Recreation and Parks. From what I understand, their cameras are installed at fixed park locations and can't be re-deployed.

I also contacted Brett Fulgoni from Engineering to see if his team could set up one of their radar boxes. These units attach to light poles and record vehicle speeds throughout the day, which should help us identify when the issue is happening. Brett confirmed his team will deploy the box early next week.

Shane

Shane,

It doesn't appear this would rise to the level of a camera at this point not to mention other than a Flock camera or City POD (if any available and infrastructure is even there to support it) those are the only options I'm aware of at this time.

Will you or one of your guys reach out and connect with Mr. Adam Puccireiarelli Phone #808-728-6390 and follow-up with some directed enforcement/deterrent efforts?

Please let me know what the outcome is so the Chief can report back to the CMO.

Thanks,
Danny

Shane,

Please look into the speeding issue, and Danny can follow up later with their request regarding the surveillance camera.

Thank you.

FYI

Brett, could Seaward use traffic calming measures?

Subject: Surveillance Camera on Carlotti and Seaward

Hi Chuen--

I had a resident by the name of Adam Puccireiarelli request that his matter be escalated to someone higher than the parks department. He is calling about the T on Carlotti and Seaward drive by the riverbed. He knows the area sometimes is a patrolled by the Park Rangers, but when it's not it is very chaotic. There have been several instances where cars are speeding down the street, racing, individuals out on the street there drinking and leaving their beer bottles and trash. He's called PD and reported it.
Phone #808-728-6390

He is requesting the city place a camera in that area. I am not sure where his request should go to?

Joy
